2019 International Conference on Intelligent Informatics and Biomedical Sciences (ICIIBMS 2019)

January 17, 2019

Dear Colleague,

We appreciate your continued support of our conference, ICIIBMS. Thank you for displaying the ICIIBMS 2018 posters last year. With your kind help and cooperation, many people from all over the world attended the ICIIBMS 2018 held in Thailand Bangkok. http://www.iciibms.org

This year the ICIIBMS 2019 will be held from Nov. 21-24, 2019 in Shanghai, China.

All presented papers of ICIIBMS 2019 will be included into IEEE Xplore (automatically indexed by Scopus and major index agencies as well). The main tracks of the conference include:

Track 1: Image Processing, Computer Science and Information Engineering
Track 2: Artificial Intelligence, Robotics and Human-Computer Interaction
Track 3: Bioinformatics, Medical Imaging, and Neuroscience

We ask for your help again this year by displaying the ICIIBMS 2019 posters at your university departments, which have a focus on the aforementioned areas.

The following are examples of target departments: Engineering, Computer Science, Information Technology, Electrical and Electronic Engineering, Medical Science, Computer Science, Faculty of Informatics, Faculty of humanities and Social Sciences, Medicine, Bioinformatics, Bioengineering, Communication, Telecommunication, and so on.

Again this year we aim to provide scholars and students a platform to share ideas and collaborate in the fields of advanced information processing and biomedical sciences.

We hope to meet you in Shanghai, China for the fourth year of ICIIBMS! Thank you for your continued support.

Sincerely,

Associate Professor Dr. Zacharie Mbaitiga
Conference General Chair
National Institute of Technology, Okinawa College, Japan
Department of Media Information Engineering, Japan
